Vision Beyond Horizons

Satwik Mediequip Global

SMG Vision Beyond Horizons
Stericare®

Introduction

Welcome to the official website of Satwik Mediequip global, an international as well as domestic Trading firm dedicated to provide you a wide range of superior quality healthcare products at an affordable price. With manufacturers based in countries like South Korea, Taiwan and Japan, we make sure that the products are developed using advanced technology. We have a wide network of reputed customers across India as well as overseas .We believes in complete customer satisfaction and building business relations that last for generations.

Vision

To expand the reach of the Indian healthcare industry overseas and to deliver healthcare products manufactured using advanced technology that meet international quality norms and customer requirements.

Mission

To meet the vital medical needs of the Indian masses by providing affordable healthcare that meets international safety standards. We care for you and that's why we leave no stone unturned in providing you the best

Quality Policy

We at SATWIK MEDIEQUIP GLOBAL are committed to provide Medical & Surgical Devices at reasonable prices, which consistently meet statuary as well as customer requirements. We aim to achieve these goals with the help of the following

- *Long-standing experience in the field of healthcare product manufacturing and quality assurance*
- *Wide global network of manufacturers having state of the art facilities, with proven track*
- *record of consistency in quality.*
- *Putting customer feedback at the top priority for further improving quality.*

We also have to ensure Customer satisfaction through Quality regulation, Cost effective processes and punctuality in Delivery with continual improvement activities.

LATEX EXAMINATION GLOVES PRE-POWDERED

Compliance Standard:

- ASTM D3578-99
- AS 4011-1997
- AS 4011-1997

Features

- Pre-Powdered Examination Gloves are made from selected high quality natural latex.
- Maximum sensitivity,
- Flexibility and elasticity,
- Designed for superior protection,
- fit and feel,
- The glove’s smooth finish provides tactile-sensitivity,
- Psses the base standards as laid down under ASTM D-3578 and EN Standards,
- The gloves are manufactured to the highest level of quality standards,
- The gloves are lightly powdered with USP grade edible cornstarch for easy donning,
- The gloves are also biodegradable,
- Ambidextrous with a beaded cuff, which guards against tearing,

SURGICAL STERILE LATEX GLOVES

Compliance Standard:

- US ASTM D3577-1991
- EN 455 Part 1/2/3 Standard Specification for Rubber Surgical Gloves
- AQL: 1.5/2.5

Product description:

- Size: 6.5″ / 7″ / 7.5″ / 8″ / 8.5″ Shape Left Right Hand
- Material: 100% pure natural high quality Latex
- Style: Textured Surface; Beaded Cuff
- Color: Milky White typically
- Powder Residue: Max 10mg/dm2

Sterilization:

- Sterilized by Ethylene oxide;

Application:

- Healthcare; Surgical Room and Medical Room

Key Feature:

- Soft, Comfortable,
- Naturally fits with Dexterity and hand sensitivity
- Textured Surface,
- Beaded cuff;
- Enable better grip and donning easy
- Low level proteins/chemical residue
- Assure low rates of allergic reactions
- Anti-Aging Leak resistance
- Superior elasticity & tensile strength for Tear resistance

Single Use Only:

- To help prevent contamination between caregivers and patients

HOT WATER BOTTLE

Features

- Available in 2.0 Ltrs and 1.5 ltrs volume.
- Rubber Hot Water Bottle are available in ribbed on both sides.
- Made of natural rubber, which is eco-friendly material.
- Qickly and easily keep you warm.
- Alleviate your aches and pains.
- Integrally moulded with jointless neck and plugs with high-quality rubber preventing leakages.

Specifications:

- Weight:2L-around420g, 1.5L-around340g
- Dimensions: 2L-L32.4 X W19.5cm, 1.5L-L28.5 X W16.5cm
- Guarantee: 2 Years

INFUSION WITH (NON VENT)

Features

- Sharp and easy piercing non vented / Vented spike
- Bacteria retention air inlet with snap on cap
- Flow regulator integrated into IV infusion set for precise flow control
- Strong ABS roller & Clamp for Controlling of Flow rate & closing the flow
- For gravity feed only
- Flexible & Transparent drip chamber for easier monitoring of Flow rate.
- Soft and kink resistant PVC tubing ensures uniform flow rate
- Standard tube length: 1500 mm
- Tube dia : I Ø 3.0 mm, O Ø 4.1 mm.

Options Available:

- With or without Air Vent
- With or without needle
- Ribbon Pouch or HM Pouch

MEASURED VOLUME FLUID ADMINISTRATION SET

Features

- Cylindrical, calibrated, Transparent & soft measured volume chamber with sharp marking scale
- Bacteria retentive air inlet eliminate the possibility of air borne contamination
- Injection port for intermittent medication
- Automatic shut off valve prevents air trapping in the fluid line once the measured volume chamber is empty, and it also indicates the level of liquid
- 15 µm fluid filter reduces particulate matter
- Approximately 60 drops/ml
- Soft and kink free PVC tubing
- Standard tube length : 1500 mm
- Tube dia : I Ø 3.0 mm. & O Ø 4.1 mm
- Available in size: 100 ml & 150 ml
- Options available:
- With or without needle
- Luer lock or luer slip or rotating Luer Lock
- Self sealing “Y” injection port (latex or latex free) designed for leakage free multiple injections
- Moulded latex flush bulb for intermittent medication
- Needle free “Y”-Site
- Air vented or non vented spike
- Plastic pack or blister paper pack

URINE COLLECTION BAG WITH NRV

Features

- For short and long term urine collection
- Capacity: 2000 ml
- Available with molded handle for easy handling
- Soft and kink free PVC tubing
- With non-return valve
- Graduated in ml to indicate the quantity of urine collected
- Conical inlet connector with cap
- Tube length: 90 & 100 cm
- Available sterile or non sterile

URINE COLLECTION BAG WITH TOP OUTLET

Features

- For short and long term urine collection
- Capacity: 2000 ml
- Available with specially molded handle for easy handling
- Soft and kink free PVC tubing
- With non-return valve
- Graduated in ml to indicate the quantity of urine collected
- Conical inlet connector with cap
- Tube length: 90 & 100 cm
- Available sterile or non sterile

SILICONE FOLEY CATHETER

Features

- 2-way and 3-way for Pediatric & Adult
- Made of Silicone elastomer bonded with latex rubber, which can be retained in body for longer duration
- Symmetrical balloon expands in all directions so as to perform its function safety and efficiently
- Smooth connector between shaft and cavity
- Maximum soft.
- fitness and biocompatibility to enhance the patient's comfort
- Color-coded for easy identification of size

DIGITAL THERMOMETER RIGID TIP

Features

- Quick, highly accurate reading over the body temperature range.
- Easy to read with LCD display.
- Equipped with beep alarm
- Memory function.
- Flexible tips,
- Suitable to children and adult use in home and in hospital.

Technical data:

- Range: 32°C-42.9°C (90.0°F-109.9°F);
- Accuracy: ±0.2 °F 95.9°F -107.6°F
- Environment: At standard room temperature
- Display: Liquid crystal display
- Battery: One 1.55V button size battery
- Alarm: Approx. 10 seconds sound signal when peak temperate
- Product size: 12.5×1.0×1.8cm;

COMPRESSOR NEBULIZER

Flip top lid compressor Nebulizer

Features

- One button operation
- Easy carry handle
- Ideal for all ages
- One storage compartments
- Latex free
- Easy to clean and lightweight
- Complete nebulizer kit included Adult mask+ cup 6CC + mouthpiece + PVC tube + 5pcs filters
- Different color available : Blue /Green /Pink /Yellow
- CE0120 certificated

Specifications & Technical Datas:

- Power: 230 V AC /50HZ or 120V AC /60HZ
- Current:0.70 or 1.5A
- Max capicity of medicine cup: 6ml
- Particle size: 0.5 to 10um
- Average Nebulizer rate: ≥0.33 ml/min
- MMAD:4.0～6.0um
- Noise: ≤ 60dBA
- Unit size: 270 x 200 x 110 MM
- Unit weight: 2.0 KG
- Suggested applications : hospital , clinical, nursing home, homecare

SATWIK MEDIEQUIP GLOBAL

NEBULIZER MASK

Features

- Specially designed nebulizer chamber with nebulization rate of approximately 3cc in 10 minutes
- Average particle size generation is approximately 2 microns
- Complete kit consists of: Nebulizer Mask, Nebulizer Chamber, and 210 cm Star Lumen Tube
- Elongated facemask for long term use
- Clear and soft mask for patient comfort
- Adjustable elastic strip and integrated nose clip for proper positioning of mask
- 210 cm long star lumen tubing to ensure continuous flow of oxygen
- Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source
- Sizes: Adult and pediatric

BLOOD GLUCOSE MONITORING SYSTEM

Features

- Only 1 ul blood sample require
- Extra Large LCD display
- 360 memory with date and time
- Alarm reminder
- Average of last – 7-,14-, 28- day
- Readings-Automatic shut –off

Complete Monitoring System include

- 1 Meter with one 3.0v CR2032,
- 10 test strips,
- 10 lancets,
- 1 lancing device,
- 1 control solution,
- 1storage case ,
- 1 User Manual English,
- 1 owner's booklet,
- 1 logbook

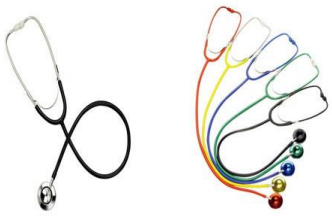
DUAL HEAD STETHOSCOPE



Description:

- deluxe dual head stethoscope
- item：KS-2037A
- packing： common neutral packed and PVC
- chestpiece: aluminium alloy the largest share plating matt
- binaural: stainless steel or aluminium alloy
- Tube:Y- tubing
- diaphragm SMG design

SAFETY BLOOD COLLECTION NEEDLE

Features

Safe and user friendly:

- Multi-sample drawing needles reduce the chances of contamination and eliminate contact of Paramedical staff with blood sample.

Leak proof needle:

- On removing the needle from blood Collection Tube, Needle is closed off with rubber shield..

Smooth & sharp needle:

- Pain less during vein penetration

Thin walled needle

- Help in smooth flow of blood.

SATWIK MEDIEQUIP GLOBAL

- Size: 20G, 21G and 22G

NEEDLE HOLDER FOR USE WITH SAFETY BLOOD COLLECTION NEEDLES

Features

- Needle Holder is used with multi-sample blood collection needles with Vaccum blood collection tubes
- Needle Holder reduces needle stick injuries when needle shield is fully slided forward and activated.
- Full extension of the needle shield completely covering the needle
- Ensure safety & comfort for paramedical staff & patient
- Ensures a safe needle insertion & its release
- Compatible with all Type of Vaccum blood collection tubes

GUEDEL AIRWAY

Features

- Rounded atraumatic edges
- Smooth airway path for easy cleaning
- Bite block to prevent biting of tongue and airway occlusion
- Sterile product for single use
- Colour coded for easy identification of sizes

Size

- 9 different sizes for all kinds of patients

Adult With 1.8 M Tubing

Size	Color	Length	Packing
000	Voilet	40 mm	25 pcs.
000	Blue	50 mm	25 pcs.

HIGH PRESSURE EXTENSION LINE

Features

- Small bore high pressure extension line suitable for high pressure monitoring
- Kink resistant PVC tubing resistant to breakage and damage
- For pressures up to 55 bar (800 psi)
- sharp needle tip,
- Capacity : 1.0 ml per 100 cm
- Tube dia : I Ø 1.5 mm. & O Ø 3.0 mm

LOW PRESSURE EXTENSION LINE

Features

- Extension line suitable for low pressure applications
- For pressures up to 4.5 bar (60 psi)
- Also available with “Y” injection port (latex or latex free) for intermittent medication
- Tube dia : I Ø 3.0 mm. & O Ø 4.1 mm
- Available with or without clamp
- Readings-Automatic shut –off

UMBILICAL CORD CLAMPS

Features

- Good for clamping the umbilical cord after birth
- Security lock is provided to avoid an accidental opening after application
- Ribbed clamping surface to prevent any slipping of the umbilical cord
- Available in white colour

REPIROMETER BREATHING EXERCISER

Features

- Helps patient to recover the normal respiration after a chest or abdominal surgery. Also helps to develop, improve and maintain respiratory fitness
- Encourages deep and prolonged Inspiration
- Minimum Compliances
- Three chamber design allows patient to lift the balls without any resistance to achieve the maximum volume in minimum time
- Transparent, well calibrated chambers with colour coded triple balls allows visual calibration and estimation of the patient's progress
- Air filter for enhanced protection
- Soft, aesthetically coloured inspiratory tubing with accommodative groove when not in use
- It incorporates a container to place the mouthpiece after being washed which has a lower overture to drain the spared cleaning water drops and maintains hygiene
- Medical grade flawless sealing
- Sleek and stable design
